

Master of Science

(Biomedicine)

Mixed Mode Programme

1-Year Program
 Malaysian: RM 10,600
 International: USD 4,000

Master of Science (Biomedicine) Mixed Mode Programme supports Malaysia's aspiration to produce more fresh biomedical scientists with advanced knowledge, research acumen and innovative capabilities to meet the demand of the health industries. The programme also offers opportunities for scientists to synergistically elevate their academic qualification, skills and proficiency levels in biomedicine. Essentially, this programme serves as a platform for candidate to pursue PhD in biomedicine.

Based on our fields of expertise and inputs from key stakeholders, this programme is designed to offer advanced courses in cell biology, pharmacotoxicology and infection diseases. In addition, candidates will be guided to acquire critical thinking skills, good ethical practices and high professionalism in biomedical research.
