BACHELOR IN NURSING WITH HONOURS

INTRODUCTION

The Bachelor in Nursing is a four-year (8 semesters) programme offered by the School of Health Sciences, Universiti Sains Malaysia Health Campus. The programme provides theoretical and clinical education to produce nurses of calibre, innovative, proactive, with critical thinking and problem-solving abilities. The curriculum covers Biological Sciences, Behavioural Sciences, Nursing Sciences, Clinical Skills, Computer Skills, Research and Scientific Writing Skills, Communication and Information Distribution Skills, Critical Thinking and Problem Solving Skills, Co-Curricular Activities, Social Skills as well as Teaching and Patient Management Skills. These components are incorporated into the nursing curriculum to strengthen the basic knowledge of nursing practice. In addition, it improves the nursing profession at par with other healthcare professions. Scientific knowledge and evidence-based can aid in promoting competent, independent and safe practitioners.

THE AIMS OF THE PROGRAMME

In line with our mission, we aim to produce graduates that:

- Demonstrate mastery of knowledge in the field of nursing and practice soft skills and holistic, competent, and safe nursing care.
- Apply critical thinking, problem-solving, and decision-making skills as well as communicate effectively at every level of the organisation and society.
- Perform social responsibility and work as a team in nursing care management with high ethical values and professionalism.
- Practice lifelong continuous learning in the nursing profession.
- Apply scientific and analytical thinking in research and entrepreneurship centred on sustainability and master effective management and leadership principles.

CURRICULUM COMPONENTS

The programme was developed by taking into account the requirement of the Malaysian Nursing Board (MNB).
